# A rather sp

The NOVA SPORT – a very special new performance specification developed from the class winning Nova which has competed so effectively in the British Open Rally Championship.

The G.M. Dealer Sport Pack with its twin dual choke Weber carburettors produces a power increase of over 35% to give a top speed of 114mph allied to vivid acceleration through the gears.

Additionally, the Sport has specially engineered camshaft, manifold and exhaust system and these together with the 5 speed SR gearbox, 5 × 13 wheels and 175/70 low profile tyres combine to enhance your motoring pleasure whether in town, across country or just cruising along the motorway.

Powerful ventilated disc brakes from its bigger brother – the new Astra GTE, are fitted to effectively constrain the increased performance.

# Special NOVA

The Nova Sport will provide levels of road performance well in excess of other cars in its class providing a specification for the most demanding sporting driver or as an ideal vehicle for the serious motor sport competitor.

This carefully devised sports pack, fitted by your Vauxhall/Opel dealer fully reflects the development that takes place from G.M. competition programmes.

Superlative engineering and elegance of design mix together so well in the Nova Sport, that you forget the practicality that the hatchback with the huge rear cargo facility gives.

The exclusive, striking, carefully co-ordinated 'Sports' livery and smooth aerodynamic white wheel trims, reflect that the Nova Sport really is something 'rather special'.
